Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

The performance is calculated by Raiffeisen KAG on the basis of published fund prices, using the method developed by OeKB (Österreichische Kontrollbank AG). Individual costs such as transaction fees, the subscription fee, the redemption fee, the custody charges of the investor and taxes are not included in the performance calculation. If included, these would lead to a lower performance. Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. Based on the illustration, you can assess how the fund was managed in the past.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its semi-annual fund report for R-RAMRO-1 for the reporting period from Jan 1, 2024 to Jun 30, 2024. The accounting is based on the price calculation as of Jun 28, 2024.

Fund investment policy report

The fund is a global equity fund that adheres to strict sustainability criteria. It consists of four geographical segments: USA, Europe, CEE/Romania, and Emerging Markets. According to the agreement, allocation between the four segments is adjusted quarterly based on the recommendation of Raiffeisen Research (implementation takes place two weeks after the quarter ends). In the first quarter of 2024, the allocation was 40% USA, 35% Europe, 10% CEE/Romania, and 15% EM. For the second quarter of 2024, the weight in the EM segment was reduced to 5%, while the weights in the USA segment (to 41.67%) and the Europe segment (to 43.33%) were increased.

The fund performed positively in the first half of 2024, achieving a total return of +13.25% (before costs), with the CEE/Romania and USA segments standing out. The Europe segment and the global EM segment also recorded gains, but clearly lagged behind the other segments.

USA Segment

The portfolio follows the strategy of the Raiffeisen US Equities fund.

Europe Segment

The portfolio follows the strategy of the Raiffeisen Sustainability Europe Equities fund.

CEE/Romania Segment

The portfolio is based on a universe of approximately 150 Eastern European companies, supplemented by companies with significant business activities in the CEE region. This universe is analyzed according to fundamental and strict sustainability criteria.

Emerging Markets Segment

The portfolio typically follows the strategy of the Raiffeisen Sustainability Emerging Markets Equities fund. However, due to the small segment size in the second quarter of 2024, efficient management of this segment portfolio was no longer feasible. As a result, with the implementation of the allocation, this segment was temporarily switched from individual securities to shares in the Raiffeisen Sustainability Emerging Markets Equities fund.

For specific performance-related events during the reporting period within the individual segments, we refer, where applicable, to the separate reports of the underlying sustainability funds.

Makeup of fund assets in EUR

Any discrepancies in terms of the market value or the share of the fund assets result from rounding-off.
