The fund is actively managed without reference to a benchmark.

Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its interim report for Raiffeisen Sustainable Mix for the reporting period from Oct 1, 2024 to Dec 31, 2024. The accounting is based on the price calculation as of Dec 31, 2024.

Development of the fund assets and income statement

Performance in reporting period (fund performance)

Distributing units (I) (AT0000A1G2L0)	
Net asset value per unit at start of reporting period in EUR	109.99
Distribution on Dec 16, 2024 (net asset value: EUR 111.87) of EUR 2.0300, corresponds to 0.018146 units	
Net asset value per unit at end of reporting period in EUR	110.74
Total value incl. units purchased through distribution (1.0181 x 110.74)	112.75
Net income/net reduction per unit	2.76
Performance of one unit during the reporting period in %	2.51
Distributing units (S) (AT0000A2E091)	
Net asset value per unit at start of reporting period in EUR	119.94
Distribution on Dec 16, 2024 (net asset value: EUR 122.73) of EUR 1.1700, corresponds to 0.009533 units	
Net asset value per unit at end of reporting period in EUR	121.44
Total value incl. units purchased through distribution (1.0095 x 121.44)	122.60
Net income/net reduction per unit	2.66
Performance of one unit during the reporting period in %	2.22
Distributing units (R) (AT0000859517)	
Net asset value per unit at start of reporting period in EUR	103.02
Distribution on Dec 16, 2024 (net asset value: EUR 105.03) of EUR 1.5000, corresponds to 0.014282 units	
Net asset value per unit at end of reporting period in EUR	103.95
Total value incl. units purchased through distribution (1.0143 x 103.95)	105.43
Net income/net reduction per unit	2.41
Performance of one unit during the reporting period in %	2.34
Distributing units (RZ) (AT0000A1TWK1)	
Net asset value per unit at start of reporting period in EUR	131.88
Distribution on Dec 16, 2024 (net asset value: EUR 134.46) of EUR 2.1000, corresponds to 0.015618 units	
Net asset value per unit at end of reporting period in EUR	133.11
Total value incl. units purchased through distribution (1.0156 x 133.11)	135.19
Net income/net reduction per unit	3.31
Performance of one unit during the reporting period in %	2.51
Distributing units (RD) (AT0000A2SL08)	
Net asset value per unit at start of reporting period in EUR	98.90
Distribution on Dec 16, 2024 (net asset value: EUR 101.28) of EUR 0.9900, corresponds to 0.009775 units	
Net asset value per unit at end of reporting period in EUR	100.24
Total value incl. units purchased through distribution (1.0098 x 100.24)	101.22
Net income/net reduction per unit	2.32
Performance of one unit during the reporting period in %	2.35

Reinvested units (R) (AT0000805361)	
Net asset value per unit at start of reporting period in EUR	138.14
Outpayment on Dec 16, 2024 (net asset value: EUR 141.94) of EUR 0.9127, corresponds to 0.006430 units	
Net asset value per unit at end of reporting period in EUR	140.48
Total value incl. units purchased through outpayment (1.0064 x 140.48)	141.40
Net income/net reduction per unit	3.26
Performance of one unit during the reporting period in %	2.36
Reinvested units (RZ) (AT0000A1TWJ3)	
Net asset value per unit at start of reporting period in EUR	138.68
Outpayment on Dec 16, 2024 (net asset value: EUR 142.39) of EUR 1.2096, corresponds to 0.008495 units	
Net asset value per unit at end of reporting period in EUR	140.96
Total value incl. units purchased through outpayment (1.0085 x 140.96)	142.16
Net income/net reduction per unit	3.48
Performance of one unit during the reporting period in %	2.51
Fully reinvested units (I) (AT0000A1VG68)	
Net asset value per unit at start of reporting period in EUR	117.73
Net asset value per unit at end of reporting period in EUR	120.67
Net income/net reduction per unit	2.94
Performance of one unit during the reporting period in %	2.50
Fully reinvested units (R) (AT0000785381)	
Net asset value per unit at start of reporting period in EUR	150.09
Net asset value per unit at end of reporting period in EUR	153.60
Net income/net reduction per unit	3.51
Performance of one unit during the reporting period in %	2.34
Fully reinvested units (RZ) (AT0000A1TWL9)	
Net asset value per unit at start of reporting period in EUR	140.23
Net asset value per unit at end of reporting period in EUR	143.74
Net income/net reduction per unit	3.51
Performance of one unit during the reporting period in %	2.50
Fully reinvested units (RD) (AT0000A2SL16)	
Net asset value per unit at start of reporting period in EUR	100.96
Net asset value per unit at end of reporting period in EUR	103.32
Net income/net reduction per unit	2.36
Performance of one unit during the reporting period in %	2.34

The performance is calculated assuming wholesale reinvestment of distributed/paid-out amounts at their net asset value on the distribution/payment date.

The Depotbank calculates the unit value separately for each unit certificate class. Discrepancies may arise in the annual performance figures for individual unit certificate classes.

The performance is calculated by Raiffeisen KAG on the basis of published fund prices, using the method developed by OeKB (Österreichische Kontrollbank AG). Individual costs such as transaction fees, the subscription fee, the redemption fee, the custody charges of the investor and taxes are not included in the performance calculation. If included, these would lead to a lower performance. Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. Based on the illustration, you can assess how the fund was managed in the past.

Profits realized from derivative instruments	5,503,826.37
Losses realized from securities	-64,914,990.26
Losses realized from derivative instruments	-1,242,652.52
Realized closing price (excl. income adjustment)	28,089,706.54
Realized fund result (excl. income adjustment)	32,821,270.01

B. Unrealized closing price

Change in unrealized closing price	97,008,908.80
Change in dividends receivable	-625,708.58
	96,383,200.22

C. Income adjustment

Income adjustment for income during reporting period	-10,841.52
	-10,841.52
Overall fund result	129,193,628.71

The result for the past reporting period includes explicitly reported transaction costs (incl. external transaction-related costs, see item 15a "Transaction costs" in section II of the prospectus) in the amount of 1,179,812.15 EUR.

Capital market report

2024 was an excellent year for equities and a good year overall for bonds. Many stock indices in the US, Europe and Asia climbed to new record highs and saw double-digit percentage price gains in the current year, in some cases well over 20 %. Once again, the US stock indices were leading the way among developed markets. Chinese equities were also among the top performers this year, especially H-shares traded in Hong Kong, albeit after several years of plummeting prices. Latin America ended the year as the worst-performing major region, not least due to a stagnating Brazilian equity market and a very weak Brazilian currency. As in the previous year, 'artificial intelligence' was one of the dominant topics and many companies with promising positions in this area were among the biggest winners this year.

Interest rate cuts by the US Federal Reserve were repeatedly priced in and out by the markets in recent quarters, leading to significant price fluctuations not only in equities but also in bonds. While financial markets now expect only one or two interest rate cuts for the US in 2025, they are pricing in around six interest rate cuts for the eurozone. The prospect of interest rate cuts, sufficiently low or further easing inflation, and moderate economic growth without overheating or recession is positive not only for government bonds, but even better for corporate bonds. Corporate bonds in Europe and the US are therefore still enjoying strong demand from investors and in 2024 once again outperformed the respective government bonds of the US and the euro core countries handsomely. The highest returns were seen in the riskier bond segments (high-yield bonds). Many emerging market bonds also provided their investors with decent returns this year.

In the commodities market, precious metals continued their upward trend of the previous year and posted strong gains, thanks mainly to another surge in the price of gold. The latter outperformed even the vast majority of stock indices. Industrial metals and energy commodities rose in the first half of 2024, but then fell back sharply. Both ended the year slightly down in US dollars, but slightly up in euros. The reason for this performance difference lies in the continued strength of the US dollar, which appreciated by around 6.5 % against the euro in 2024.

The disruptions and distortions caused by the pandemic and lockdowns have been overcome. However, global economic relations and production chains are once again under strain from escalating geopolitical confrontations and renewed conflicts in regions that are important transit points for trade routes. This is likely to result in lasting and serious upheavals in supply chains and global economic structures and could significantly change the competitive positions of entire industries and regions. This is compounded by the long-term challenges posed by climate change, demographics, and elevated levels of public debt in many countries. The economic and financial market environment remains challenging and could continue to cause significant price fluctuations in almost all asset classes in 2025.

Fund investment policy report

The fund continues to invest in equities and bonds of issuers which focus on sustainability and have above-average ratings in terms of social and environmental criteria. In addition to a favorable sustainability assessment, the selected issuers must also have attractive financial valuations.

The fund posted a highly positive performance in the reporting period.

Equities

The US economy recorded strong growth once again in Q4, especially in the service sector.

This positive economic development was also reflected in a very strong reporting season. As a result, US stock markets continued to climb. A new rise in inflation in connection with a strong labor market diminished expectations of further interest rate cuts in the USA. This resulted in a considerable appreciation of the US dollar as compared with the euro. Despite the outlook of additional trade tariffs, the US market reacted favorably to the Republicans' election victory since possible tax cuts and deregulation measures were to be expected. In Europe, the economy continued to weaken and the uncertainty about the economic impact of the US election – especially regarding the introduction of trade tariffs – put pressure on European stock markets.

In this environment, the equities segment performed quite well overall.

In the reporting period, most invested sectors made a positive performance contribution. Especially the sectors IT, financials and communication services developed quite positively. On the other hand, the largest negative performance contribution was made by the sectors healthcare and raw materials, supplies and utilities.

Among the individual stocks, the best performers were Broadcom, a provider of semiconductor and infrastructure software solutions, Lululemon Athletica, a sportswear retailer and Shopify, an e-commerce solutions provider.

The weakest individual stocks included Enphase, an inverter manufacturer, Vestas Wind Systems, a manufacturer of wind turbines and Omron, an automated solutions provider.

In the reporting period, Lululemon, Novartis, Datadog, Uber and Booking, among others, were added to the portfolio.

On the other hand, companies such as Omron, Yaskawa Electric and Henkel were sold off completely. The fund's activities in its equities segment were shaped by profit-taking, measures to optimize risk/reward perspectives and not least by changes to the sustainability assessment for individual securities.

Euro bonds

Euro bond markets were generally on the positive side in Q4. One outperformer in this environment was once again corporate bonds, which continued their 2024 trend, namely further narrowing spreads for financials, non-financials and, for example, BB bonds. However, the environment was also marked by a headwind from bond yields from the European core zone, which were slightly on the rise again. This was counteracted by the falling swap yield trend and the sharp drop in swap spreads (difference between Bunds and swaps). Meanwhile, swap rates (among others, in the 10-year segment) even fell below those of German Bunds, which was justified on the market by the high supply of government bonds and an adjustment within the Netherlands' pension system that favors swaps over government bonds. This movement on the swap market created a tailwind for all swap-correlated products and was therefore a further factor that influenced the segment's performance positively. In the reporting period, the US election had no major impact on spreads or yields; there were no signs of risk sentiment deterioration until late November, which slightly raised spreads from their previous lows but was soon replaced again by year-end sales of corporates, causing spreads to close quite near to the year's lows.

Within the investment grade segment, risk continued to be rewarded; for example, BBB bonds performed better than comparable bonds in the A or AA range, which further helped the fund due to its orientation. Financials and non-financials performed more or less equally in recent times. Thus, this trend of outperformance by financials could not be continued – especially because of the nearly identical spread levels.

Overall, Q4 in the euro bonds segment showed a continuation of the first three quarters of 2024, with the segment recording a good performance that was mainly due to the performance of credit markets.

The weighting of corporates remained clearly offensive in the segment, at roughly 55 % of the segment volume. Year-end yields were attractive, raising hopes of another positive year for bonds.

This is also supported by our forecast of lower government bond yields; we are expecting a reduction of roughly 0.3 % for 10-year German government bonds over the year.

We also rate corporate markets positively, although we expect a slight widening of corporate bonds that should still lead to a slight outperformance of corporates over government bonds due to the yield advantage of corporates.

The duration of euro bonds was recently raised again. In our opinion, a key factor here is that the market is currently not pricing in interest rate cuts sufficiently while inflation expectations continue to fall. At the end of the year, the duration for euro bonds was at roughly 5.5 years.

Global bonds

Accounting for an average of around 10 % of the overall fund, the sustainable US dollar bonds that had been added to Raiffeisen Sustainable Mix recorded a negative performance. The basic environment was marked by inflation rates above the central bank's target rate and interest rate cuts which occurred nonetheless. And all of this was overshadowed by the Republicans' victory in the US elections for Congress and the presidency. This steepened the yield structure curve even further. The securities within the global bond segment did not escape the overall negative environment for bonds. This applied to bonds issued by supranational organizations and agency issuers, mortgage bonds, bank bonds and corporate bonds. In the course of the period under review, the yield differentials between these non-government bonds and US government bonds declined. The interest rate risk for US dollar bonds fluctuated within a range of 3.7 to 3.9 years during the reporting period. The US dollar gained significantly against the euro in the reporting period, which more than compensated for the losses in bond prices. The global bond segment thus recorded a positive overall performance of roughly 5.5 % in euro in the reporting period.

Securities lending transactions were entered into in order to generate additional income.

Transparency of the attainment of the environmental and social characteristics (Article 8 in conjunction with Article 11 of Regulation [EU] 2019/2088 / Disclosure Regulation)

For information about the attainment of the environmental and social characteristics, please refer to the annex "Environmental and/or Social Characteristics" to this annual report.

➤ Identity of the counterparties for securities lending transactions:

Raiffeisen Bank International AG (as a recognized securities lending system within the meaning of § 84 InvFG)

➤ Nature and value of eligible collateral received by the investment fund versus the counterparty risk:

Under the master agreement on securities lending transactions concluded between the management company and Raiffeisen Bank International AG, Raiffeisen Bank International AG is obliged to provide collateral for loaned securities. Bonds, equities and units in investment funds are permitted as collateral. The bonds used as collateral may be issued by sovereigns, supranational issuers and/or companies etc. No stipulations apply in relation to the terms of these bonds. Within the scope of provision of collateral, pursuant to § 4 of the Austrian Securities Lending and Repurchase Agreement Ordinance (Verordnung zu Wertpapierleih- und Pensionsgeschäften, WPV), diversification and correlation with risk diversification achieved through quantitative issuer limits in particular and appropriate liquidity for collateral for the purpose of tradability and realizability will be ensured. This collateral will be valued on each banking day, subject to an add-on compared to the valuation of the securities loaned from the fund in accordance with provisions of EU Regulation 575/2013 (CRR). For bonds, this add-on will be determined on the basis of the credit rating of the issuer and the remaining term of the bond and will amount to no less than 0.5 %. For equities and units in investment funds, this add-on will amount to 10.607 %. The value of the required collateral, thus calculated, will result in the ongoing overcollateralization of the fund's outstanding securities lending positions.

On the reporting date the collateral had the following makeup:

ISIN	Security title	Regulated market	Currency	Asset class	Issuer	Rating	Volume Dec 31, 2024	Market value in portfolio currency

In relation to securities lending transactions, the investment fund is not entirely collateralized by means of securities which are either issued or guaranteed by an EEA member state.

Collateral holding period: unlimited

Period of securities lending:

Duration / Days	< 1 day	1-7 days	7-30 days	30-90 days	90-360 days
	0 %	0 %	0 %	0 %	100 %

Country of counterparty (Raiffeisen Bank International AG): Austria

Settlement: bilateral

➤ Reuse of collateral:

Collateral received is not reused.

➤ Custody of collateral which the investment fund has received in connection with securities lending transactions:

The collateral will be held in a separate sub-account with the custodian bank/depositary for each fund.

➤ Custody of collateral which the investment fund has provided in connection with securities lending transactions:

Within the limits stipulated by law (§ 84 InvFG), the management company is merely permitted to lend securities to third parties. However, it is not permitted to borrow securities. Accordingly, the investment fund will not provide any collateral within the scope of securities lending transactions.

➤ Fees, direct and indirect operating costs and income of the investment fund resulting from securities lending transactions during the accounting period:

Income: 50,163.13 EUR (of which 100 % from securities lending transactions)

Costs: N/A

Further information on repurchase agreements

During the reporting period, no repurchase agreements were concluded on behalf of the fund. Accordingly, the information concerning repurchase agreements which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

Total return swaps and similar derivative instruments

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.

Calculation method for overall risk

Calculation method for overall risk	Simplified approach
-------------------------------------	---------------------

Remuneration paid to the employees of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. in EUR (financial year 2023 of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.)

Total number of employees	281
Number of risk-bearers	94
Fixed remuneration	27,084,610.23
Variable remuneration (bonuses)	2,689,523.10
Total remuneration for employees	29,774,133.33
of which remuneration for managing directors	1,332,891.89
of which remuneration for managers (risk-bearers)	2,301,015.53
of which remuneration for other risk-bearers	10,783,571.36
of which remuneration for employees in positions of control	230,294.55
of which remuneration for employees in the same income bracket as managing directors and risk-bearers due to their overall remuneration	0.00
Total remuneration for risk-bearers	14,647,773.33

- The remuneration guidelines ("remuneration guidelines") issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. serve as a binding framework for fulfillment of the remuneration policy and practice requirements stipulated in §§ 17 (a) to (c) of the Austrian Investment Fund Act (InvFG), § 11 of the Austrian Alternative Investment Fund Managers Act (AIFMG) and Enclosure 2 to § 11 AIFMG. Fixed and variable remuneration components are determined on the basis of these remuneration guidelines.
- Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has established a systematic, structured, differentiating and incentivizing compensation system which reflects the company's values as well as clear and consistent outline conditions. Its employees' compensation comprises fixed salary components as well as variable salary components for some positions. This remuneration – in particular, the variable salary component (where applicable) – reflects an objective organizational structure ("job grades").
- Compensation is determined on the basis of regular market comparisons and in accordance with local remuneration practice. The goal is to encourage employees' long-term loyalty to the company while also promoting their performance and their development within the framework of a management or specialist career path.
- At Raiffeisen Kapitalanlage-Gesellschaft m.b.H., an employee's basic salary (fixed remuneration) is non-discretionary remuneration which does not vary in accordance with the performance of the company (earnings before interest and tax) or of the specific employee (individual target achievement). It primarily reflects relevant professional experience and organizational responsibility, as outlined in the employee's job description as part of his terms of employment. The employee's fixed salary is determined on the basis of his market value, his individual qualifications and the position which he holds at Raiffeisen Kapitalanlage-Gesellschaft m.b.H. Raiffeisen Kapitalanlage-Gesellschaft m.b.H. uses all of the standard remuneration management instruments (e.g. domestic and foreign remuneration studies, salary bands, position grading). The employee's variable salary reflects the achievement of company and performance targets which are specified and reviewed within the scope of a performance management process. Employees' targets are specified on the basis of the company's strategic targets, the targets of their organizational unit or department and their function. Target agreements are concluded and the employee's level of target achievement (= performance) is determined through annual performance appraisals ("MBO system"). The target structure at Raiffeisen Kapitalanlage-Gesellschaft m.b.H. differentiates between qualitative targets – which include individual targets or division and department targets – and quantitative targets, e.g. performance and income targets, and also quantifiable project targets. Every manager is also assigned management targets. Quantitative one-year or multiple-year targets also apply within the scope of the company's core activities of sales and fund management.
- Since the performance period 2015, in accordance with the regulatory requirements a portion of the variable remuneration for risk-bearers is paid out in the form of units in an investment fund managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. In addition, as required by law portions of the variable remuneration of risk-bearers are deferred and paid out over a period of several years.

- The supervisory board of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. resolves the general remuneration policy principles specified by the remuneration committee, reviews them at least once a year and is responsible for their implementation and for monitoring of this issue. The supervisory board most recently fulfilled this duty on Nov 29, 2024. It has not identified any need for changes or any irregularities in relation to the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- In addition, at least once per year a central and independent internal review determines whether the company's remuneration policy has been implemented in accordance with the applicable remuneration regulations and procedures. The internal auditing division of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. published its most recent report on Oct 18, 2024. This report has not resulted in any material findings concerning the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- The remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has not been subject to any significant changes in the reporting period.

Remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. support the business strategy and the long-term goals, interests and values of the company and of the investment funds managed by Raiffeisen Kapital-anlage-Gesellschaft m.b.H.
- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. include measures to avoid conflicts of interest.
- The remuneration principles and policies of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. are consistent with and promote sound and effective risk-taking practices and avoid incentives for any inappropriate risk-taking propensity which exceed the level of risk tolerated by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. or the investment funds under its management.
- The total amount of variable remuneration will not limit the capacity of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. to strengthen its capital base.
- Variable remuneration is not paid by means of instruments or methods which facilitate circumvention of applicable legal requirements.
- Employees in positions of control are rewarded irrespective of the business unit which they supervise, they have an appropriate level of authority and their remuneration is determined on the basis of the fulfillment of their organizational targets in connection with their functions, irrespective of the results of the business activities under their supervision.
- Guaranteed variable remuneration is not consistent with sound risk management or the "pay-for-performance" principle and should not be included in future remuneration plans. Guaranteed variable remuneration is the exception; This is only provided in connection with new hirings and only where Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has a sound and strong capital base. It is limited to the first year of employment.
- Any payments relating to the premature termination of a contract must reflect the performance realized over the relevant period of time and must not reward failures or misconduct.

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. complies with the code of conduct for the Austrian investment fund industry 2012.

Vienna, 14 March 2025

Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

Audit opinion

Report on the interim report

Audit opinion

We have audited the interim report issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H., Vienna, for its fund Raiffeisen Sustainable Mix, consisting of the portfolio of investments as of December 31, 2024, the income statement for the reporting period ending as of this date and the other disclosures required under Annex I Schedule B of the 2011 Austrian Investment Fund Act (Investmentfondsgesetz, InvFG).

In our view, the interim report complies with applicable statutory requirements and provides a true and fair view of the net assets and financial position as of December 31, 2024 as well as the earnings position for the fund for the reporting period ending as of this date, in compliance with Austrian commercial law, the provisions of InvFG 2011.

Basis for the audit opinion

We performed our audit in accordance with § 49 (5) InvFG 2011 in accordance with Austrian principles of orderly auditing. These principles require application of the International Standards on Auditing (ISA). Our responsibilities on the basis of these requirements and standards are outlined in further detail in the "Responsibilities of the auditor for the audit of the interim report" section of our audit certificate. We are independent from the company, in compliance with Austrian commercial law and professional standards, and we have fulfilled our other professional duties in accordance with these requirements. In our view, we have obtained sufficient and suitable audit documentation as a basis for our audit opinion. In our view, the documentation we have obtained up to the date of this audit certificate forms a sufficient and suitable basis for our audit opinion of the same date.

Other information

The company's legal representatives are responsible for the other information provided. This other information comprises all of the information included in the interim report, with the exception of the portfolio of investments, the income statement, the other disclosures required under Annex I Schedule B InvFG 2011 and the audit certificate.

Our audit opinion for the interim report does not cover this other information, and we do not provide any sort of assurance in this regard.

In connection with our audit of the interim report, we have the responsibility to read such other information and, in doing so, assess whether this other information contains material inconsistencies with the interim report or with the knowledge obtained in our audit, or whether such information appears to be otherwise misrepresented.

If, on the basis of the work we have carried out in regard of the other information obtained prior to the date of the audit certificate, we conclude that a material misstatement of such other information exists, we are obliged to report the matter. We have nothing to report in this respect.

Responsibilities of the company's legal representatives and the supervisory board for the interim report

The company's legal representatives are responsible for the preparation of the interim report and for ensuring that it provides a true and fair view of the fund's net assets, financial and earnings position in compliance with Austrian commercial law and the provisions of InvFG 2011. The company's legal representatives are also responsible for the internal controls which they deem necessary in order to enable the preparation of an interim report which is free from material misrepresentations caused by fraudulent acts or errors.

The supervisory board is responsible for monitoring the company's accounting process in relation to the funds under its management.

Responsibilities of the auditor for the audit of the interim report

Our goals are to establish sufficient certainty as to whether the interim report as a whole is free from material misrepresentations caused by fraudulent acts or errors and to issue an audit certificate which includes our audit opinion.

Sufficient certainty means a high level of certainty, but not a guarantee, that an orderly audit performed in accordance with the recognized Austrian principles, which require application of the ISA, will always uncover any material misrepresentation. Misrepresentations may result from malicious acts or on the basis of errors and will be deemed material where they may be reasonably expected, either individually or collectively, to influence the economic decisions made by users on the basis of this interim report.

As part of an audit complying with the recognized Austrian principles of orderly auditing, which require application of the ISA, we exercise due discretion throughout our audit and maintain a critical distance.

In addition, the following applies:

- We identify and assess the risks of material misrepresentations caused by fraudulent acts or errors in the interim report, plan audit activities in response to these risks, implement these activities and obtain audit documentation which is sufficient and suitable in order to serve as a basis for our audit opinion. The risk of material misrepresentations resulting from malicious acts not being uncovered is greater than the risk resulting from errors, since malicious acts may include collusive collaboration, falsifications, deliberate incompleteness, misleading representations or the suspension of internal controls.
- We obtain a picture of the internal control system which is relevant for the audit so as to plan audit activities which are adequate in the given circumstances, but not with the objective of providing an audit opinion regarding the effectiveness of the company's internal control system.
- We evaluate the adequacy of the accounting methods applied by the company's legal representatives as well as the reasonableness of the legal representatives' estimates in the accounting as well as the related disclosures.
- We evaluate the overall picture, the structure and the contents of the interim report including the disclosures and whether the interim report provides a true and fair view of the underlying business transactions and events.

We discuss matters with the supervisory board including the planned scope of the audit and its schedule as well as significant audit findings, including any significant shortcomings in the internal control system that we identify in the course of our audit.

Limitation of liability

Regarding our responsibility and liability as auditors towards the company and third parties, §275 of the Austrian Business Code (*Unternehmensgesetzbuch*, UGB) shall apply.

Auditor in charge

The auditor in charge of the audit is Mr. Wilhelm Kovsca.

Fund regulations

Fund regulations pursuant to the 2011 Austrian Investment Fund Act

The Austrian Financial Market Authority (FMA) has approved the fund regulations for the investment fund Raiffeisen Sustainable Mix, a jointly owned fund pursuant to the 2011 Austrian Investment Fund Act, as amended (InvFG).

The investment fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. (hereinafter: the "management company") which is headquartered in Vienna.

Article 1 Fund units

The fund units are embodied in unit certificates with the character of financial instruments which are issued to bearer.

The unit certificates shall be represented by global certificates for each unit class and – at the discretion of the management company – by actual securities.

Article 2 Custodian bank (depository)

Raiffeisen Bank International AG, Vienna, is the investment fund's custodian bank (depository).

The custodian bank (depository), the regional Raiffeisen banks, Kathrein Privatbank Aktiengesellschaft, Vienna, and other paying agents referred to in the prospectus are the paying agents for unit certificates and the handover offices for income coupons (actual securities).

Article 3 Investment instruments and principles

The following assets pursuant to InvFG may be selected for the investment fund.

At the individual stock level (i.e. not including units in investment funds, derivative instruments and sight deposits or deposits at notice) the investment fund exclusively invests in securities and/or money market instruments whose issuers are classified as sustainable on the basis of social, ecological and ethical criteria. The fund will not invest in certain sectors such as the arms industry or the genetic engineering of crops, nor in companies which violate labor and human rights, etc. The investment fund invests at least 51 % of the fund assets directly in equities (and equity-equivalent securities) issued by companies which are headquartered or mainly active in North America, Europe or Asia and/or in bonds whose issuers are headquartered in North America, Europe or Asia. At least 25 % of the fund assets are directly invested in equities.

The following investment instruments are purchased for the fund assets, while complying with the investment focus outlined above.

Where appropriate, the fund may purchase units in investment funds whose investment restrictions differ in terms of the investment focus outlined above and the restrictions specified below with regard to investment instruments. This will not affect the fund's compliance with the above investment focus at all times.

Securities

The fund may purchase securities (including securities with embedded derivative instruments) as permitted by law.

Money market instruments

Money market instruments may comprise up to 49 % of the fund assets.

Securities and money market instruments

Not fully paid-in securities or money market instruments and subscription rights for such instruments or other not fully paid-in financial instruments may only be purchased for up to 10 % of the fund assets.

Securities and money market instruments may be purchased if they comply with the criteria concerning listing and trading on a regulated market or a securities exchange pursuant to InvFG.

Securities and money market instruments which do not fulfill the criteria laid down in the above paragraph may be purchased for up to 10 % of the fund assets in total.

Units in investment funds

Units in investment funds (UCITS, UCI) may each amount to up to 10 % of the fund assets – and up to 10 % of the fund assets in total – insofar as these UCITS or UCI do not, for their part, invest more than 10 % of their fund assets in units in other investment funds.

Derivative instruments

Derivative instruments may be used as part of the fund's investment strategy for up to 49 % of the fund assets and for hedging purposes.

Investment fund's risk measurement method

The investment fund applies the following risk measurement method:

Commitment approach

The commitment figure is calculated pursuant to the 3rd chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (*Derivate-Risikoberechnungs- und Meldeverordnung, DeRiMV*), as amended.

The overall risk for derivative instruments which are not held for hedging purposes is limited to 49 % of the overall net value of the fund assets.

Sight deposits or deposits at notice

Sight deposits and deposits at notice with terms not exceeding 12 months may amount to up to 25 % of the fund assets. No minimum bank balance is required.

Within the scope of restructuring of the fund portfolio and/or a justified assumption of impending losses for securities, the investment fund may hold a lower proportion of securities and a higher proportion of sight deposits or deposits at notice with terms not exceeding 12 months.

Short-term loans

The management company may take up short-term loans of up to 10 % of the fund assets for account of the investment fund.

Repos

Repurchase agreements may comprise up to 100 % of the fund assets.

Securities lending

Securities lending transactions may comprise up to 30 % of the fund assets.

Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes.

However, this does not apply for currency hedge transactions. These transactions may only be entered into in relation to a single unit class. Expenses and income resulting from a currency hedge transaction shall exclusively be allocated to the relevant unit class.

Article 4 Issuance and redemption modalities

The unit value shall be calculated in EUR or the currency of the unit class.

The value of the units will be calculated on each banking day in Austria.

Issuance and subscription fee

Units will be issued on any banking day in Austria.

The issue price is the unit value plus a fee per unit of up to 3 % to cover the management company's issuing costs.

Unit issuance shall not in principle be subject to limitation; however, the management company reserves the right temporarily or entirely to discontinue its issuance of unit certificates.

The management company shall be entitled to introduce a graduated subscription fee.

Redemption and redemption fee

Units will be redeemed on any banking day in Austria.

The redemption price is based on the value of a unit. No redemption fee will be charged.

At the request of a unitholder, its unit shall be redeemed out of the investment fund at the applicable redemption price, against surrender of the unit certificate, those income coupons which are not yet due and the renewal certificate.

Article 5 Accounting year

The investment fund's accounting year runs from October 1 to September 30.

Article 6 Unit classes and appropriation of income

Income-distributing unit certificates, income-retaining unit certificates with payment of capital gains tax and income-retaining unit certificates without payment of capital gains tax may be issued for the investment fund.

Various classes of unit certificates may be issued for this investment fund. The management company may decide to establish unit classes or to issue units in a given unit class.

Appropriation of income for income-distributing unit certificates (income distribution)

Once costs have been covered, the income received during the past accounting year (interest and dividends) may be distributed at the discretion of the management company. Distribution may be waived subject to due consideration of the unitholders' interests. The distribution of income from the sale of assets of the investment fund including subscription rights shall likewise be at the discretion of the management company. A distribution from the fund assets and interim distributions are also permissible.

The fund assets may not through distributions fall below the minimum volume for a termination which is stipulated by law.

From December 15 of the following accounting year the amounts are to be distributed to the holders of income-distributing unit certificates. Any remaining balances shall be carried forward to a new account.

In any case, from December 15 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Unitholders' entitlement to the distribution of income shares shall become time-barred after five years. After this period, such income shares shall be treated as income of the investment fund.

Appropriation of income in case of income-retaining unit certificates with payment of capital gains tax (income retention)

Income during the accounting year net of costs shall not be distributed. In case of income-retaining unit certificates, from December 15 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that as of the payment date the unit certificates are only held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Appropriation of income in case of income-retaining unit certificates without payment of capital gains tax (full income retention)

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made. December 15 of the following accounting year shall be the key date pursuant to InvFG in case of failure to pay capital gains tax on the annual income.

The management company shall ensure through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption as per § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian bank in the form of credit.

Appropriation of income in case of income-retaining unit certificates without payment of capital gains tax (full income retention – foreign tranche)

Income-retaining unit certificates without payment of capital gains tax shall only be sold outside Austria.

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made.

The management company shall ensure through appropriate proof that as of the payment date the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption. This can be validly proved by the cumulative submission of statements from both the custodian bank and the management company that they are not aware of a sale to other persons.

Article 7 Management fee, reimbursement of expenses, liquidation fee

The management company shall receive for its management activity an annual remuneration of up to 1.50 % of the fund assets that is calculated, recorded and deducted monthly on the basis of the respective fund assets for each calendar day.

Management fee for unit class tranche S

The management company shall receive for its management activity an annual remuneration of up to 2 % of the fund assets that is calculated, recorded and deducted monthly on the basis of the respective fund assets for this tranche for each calendar day.

The management company is entitled to reimbursement of all expenses associated with its management of the fund.

The management company shall be entitled to introduce a graduated management fee.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

In case of the liquidation of the investment fund, the liquidator shall receive remuneration amounting to 0.5 % of the fund assets.

Please refer to the prospectus for further information on this investment fund.
--

Appendix

List of stock exchanges with official trading and organized markets

1. Stock exchanges with official trading and organized markets in the member states of the EEA, as well as stock exchanges in European countries which are not EEA members that are considered to be equal to regulated markets

Each Member State is required to maintain an updated register of regulated markets authorized by it. This register is to be made available to the other member states and to the Commission.

According to this provision, the Commission is obliged to publish once a year a register of the regulated markets of which it has received notice.

Due to decreasing restrictions and to trading segment specialization, the register of "regulated markets" is undergoing great changes. In addition to the annual publication of a register in the official gazette of the European Union, the Commission will therefore provide an updated version on its official internet site.

1.1. The current register of regulated markets is available at:

https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_upreg¹

1.2. The following stock exchanges are to be included in the register of regulated markets:

- | | | |
|--------|-------------|---|
| 1.2.1. | Luxembourg | Euro MTF Luxembourg |
| 1.2.2. | Switzerland | SIX Swiss Exchange AG, BX Swiss AG ² |

1.3. Recognized markets in the EEA pursuant to § 67 (2) item 2 InvFG:

Markets in the EEA classified as recognized markets by the relevant supervisory authorities.

NOTICE

Following the departure of the United Kingdom of Great Britain and Northern Ireland (UK) from the EU and the loss of its status as an EEA member state, the stock exchanges / regulated markets located there have lost their status as EEA stock exchanges / regulated markets. Since this time, the following stock exchanges and regulated markets located in the UK:

Cboe Europe Equities Regulated Market – Integrated Book Segment, London Metal Exchange, Cboe Europe Equities Regulated Market – Reference Price Book Segment, Cboe Europe Equities Regulated Market – Off-Book Segment, London Stock Exchange Regulated Market (derivatives), NEX Exchange Main Board (non-equity), London Stock Exchange Regulated Market, NEX Exchange Main Board (equity), Euronext London Regulated Market, ICE FUTURES EUROPE, ICE FUTURES EUROPE - AGRICULTURAL PRODUCTS DIVISION, ICE FUTURES EUROPE - FINANCIAL PRODUCTS DIVISION, ICE FUTURES EUROPE - EQUITY PRODUCTS DIVISION and Gibraltar Stock Exchange

In these fund regulations, they shall explicitly be regarded as selected stock markets or recognized regulated markets of a third country within the meaning of the 2011 Austrian Investment Fund Act and the UCITS Directive.

2. Stock exchanges in European states which are not members of the EEA

- | | | |
|------|-----------------------|---|
| 2.1. | Bosnia & Herzegovina: | Sarajevo, Banja Luka |
| 2.2. | Montenegro: | Podgorica |
| 2.3. | Russia: | Moscow Exchange |
| 2.4. | Serbia: | Belgrade |
| 2.5. | Turkey: | Istanbul (for Stock Market, "National Market" only) |

3. Stock exchanges in non-European states

- | | | |
|------|------------|----------------------------------|
| 3.1. | Australia: | Sydney, Hobart, Melbourne, Perth |
| 3.2. | Argentina: | Buenos Aires |
| 3.3. | Brazil: | Rio de Janeiro, Sao Paulo |

¹ To open the register, in the left-hand column under "Entity type", select "Regulated market" and click "Search" (click "Show table columns" and "Update" as necessary). The link may be modified by the European Securities and Markets Authority (ESMA).

² Due to the expiry of equivalence for Swiss stock exchanges, SIX Swiss Exchange AG and BX Swiss AG are now included under Section 2 "Stock exchanges in European states which are not members of the EEA" until further notice.

3.4.	Chile:	Santiago
3.5.	China:	Shanghai Stock Exchange, Shenzhen Stock Exchange
3.6.	Hong Kong:	Hong Kong Stock Exchange

Product name:

Raiffeisen Sustainable Mix

Legal entity identifier: 529900TCP08VKZIACQ29

The product (the fund) is managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. as management company. Fund Manager: Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: <u> </u> %	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>88.10 %</u> of sustainable investments
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: <u> </u> %	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund took environmental and social criteria in consideration for investments, in particular climate change, natural capital & biodiversity, pollution and waste, environmental improvement opportunities (such as green technologies and renewable energy), human resources, product liability & safety, stakeholder relations and social improvement opportunities (such as access to healthcare). Corporate governance as well as entrepreneurial behaviour & business ethics (overall "good governance") were in any case prerequisites for an investment. There was no limitation to specific environmental or social characteristics.

No reference benchmark was designated for the achievement of the promoted environmental or social characteristics.

How did the sustainability indicators perform?

The Raiffeisen ESG indicator is used by the management company as an internal sustainability indicator. The management company continually analyses companies and sovereigns based on internal and external research sources. The results of this sustainability research are combined with a comprehensive ESG evaluation, including an ESG risk assessment, to create the so-called Raiffeisen ESG indicator. The Raiffeisen ESG indicator is measured on a scale from 0 to 100.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

The assessment also takes into account the relevant sector.

At the end of the abbreviated accounting year the Raiffeisen ESG indicator was: 73,15

● **...and compared to previous periods?**

financial year 1.1.2023-31.12.2023:	Raiffeisen-ESG- indicator: 74,8
financial year 1.1.2022-31.12.2022:	Raiffeisen-ESG- indicator: 71,4
financial year 1.1.2021-31.12.2021:	Raiffeisen-ESG- indicator: 73,1

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments covered improvements in the areas of climate change, natural capital and biodiversity, pollution and waste, environmental improvement vectors (such as green technologies and renewable energy), human resources, product liability and safety, relationships with interest groups, and social improvement vectors (such as access to health care) compared with the traditional market. Good corporate governance, including business practices and business ethics, was a prerequisite for an investment in any case.

The sustainability of an economic activity was assessed on the basis of the internal Raiffeisen ESG corporate indicator. It combined a wide range of data points relating to environmental, social, and governance (ESG) factors. In addition to sustainability opportunities and risks, the contribution that the business activity made to sustainable objectives along the entire value chain was examined and transformed into qualitative and quantitative ratings. An important part of this was the sustainable influence of the respective products and/or services (economic activity).

At the end of the abbreviated accounting year, the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To avoid significant adverse impacts on an environmental or social sustainable investment objective, securities that violate negative criteria as defined by the management company for this purpose and relating to environmental and social objectives (such as the extraction and use of coal, labour rights violations, human rights violations, and corruption) did not qualify as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

See the information under „How did this financial product consider principal adverse impacts on sustainability factors?“.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The positive and negative criteria contained in the investment strategy covered all aspects of the OECD Guidelines for Multinational Enterprises (such as avoidance of environmental destruction, corruption, and human rights violations as well as adherence to the core ILO labour standards). The fund management continuously monitored various channels of information such as the media and research agencies to determine whether investments are affected by serious controversies. In addition, the fund assets were assessed for potential violations of the OECD Guidelines for Multinational Enterprises by means of a screening tool from a recognised ESG research provider. A company that did not comply with the OECD Guidelines for Multinational Enterprises was not eligible for investment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

A violation was assumed to exist if a company was involved in one or more controversial incidents in which there were credible allegations that the company or its management had caused substantial damage of a significant scope in violation of global standards.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The consideration of the principal adverse impacts of investment decisions on sustainability factors was carried out through negative criteria, through the integration of ESG research into the investment process (ESG Scores) and in stock-picking (positive criteria). The use of positive criteria included the absolute and relative assessment of companies regarding stakeholder-related data, e.g., relating to employees, society, suppliers, business ethics and environment. Additionally, companies were encouraged to reduce the adverse sustainability impacts through corporate dialogue and, in particular, through the exercise of voting rights – a process known as “engagement”. These corporate engagement activities were conducted in the respective companies independent of any specific investment. The table shows the theme areas from which sustainability indicators for adverse impacts were considered, in particular, as well as the main methods that were applied.

Companies		Negative criteria	Positive criteria
Environment	Greenhouse gas emissions	✓	✓
	Activities with adverse impacts on areas with protected biodiversity	✓	✓
	Water (pollution, consumption)		✓
	Hazardous waste		✓
Social affairs and employment	Violations or lack of policy regarding the United Nations Global Compact (initiative for responsible corporate governance) and OECD guidelines for multinational companies; work accidents	✓	✓
	Gender justice		✓
	Controversial weapons	✓	✓

Countries and supranational organizations		Negative criteria	Positive criteria
Environment	Greenhouse gas emissions	✓	✓
Social issues	Violation of social provisions in international agreements and conventions and the principles of the United Nations	✓	✓

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:
 reporting period Oct 1, 2024
 - Dec 31, 2024

Largest investments		Sector	% Assets	Country

What was the proportion of sustainability-related investments?

Sustainability-related investments refer to all investments that contribute to the achievement of the environmental and/or social characteristics within the scope of the investment strategy.

What was the asset allocation?

The values given below refer to the end of the abbreviated accounting year.

At the end of the reporting period 98.20 % of total fund assets were aligned with environmental or social characteristics according to the investment strategy (#1, see also information under "To what extent were the environmental and/or social characteristics promoted by this financial product met?"). 1.80 % of total fund assets were other investments (#2, see also information under "What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?").

88.10 % of total fund assets were sustainable investments with environmental or social objectives aligned with Art. 2 (17) of Regulation (EU) 2019/2088 (Sustainable Finance Disclosure Regulation) (#1A, see also information under "What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?" and "What was the share of socially sustainable investments?").

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investment.

● In which economic sectors were the investments made?

Investment structure	Proportion Fund in %
Information Technology	31,84
Financials	14,31
Health Care	13,60
Industrials	11,61
Telecommunication Services	7,09
Consumer Discretionary	5,45
Sonstige / Others	16,09
Gesamt / Total	100,00

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies

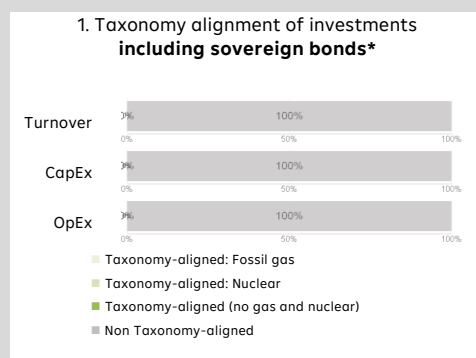

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

At the end of the abbreviated accounting period, the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹ ?**

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☐ No.
- Not applicable.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds..

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

At the end of the abbreviated accounting year, the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Within previous reference periods the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The sustainability of an economic activity is assessed on the basis of the Raiffeisen ESG indicator. As this is comprised of environmental and social objectives, it is not sensible to differentiate between the individual shares for environmental and social investments. At the end of the abbreviated accounting period, the actual share of investments that pursued environmental and social objectives was 88.10 % of the fund assets.

What was the share of socially sustainable investments?

The sustainability of an economic activity is assessed on the basis of the Raiffeisen ESG indicator. As this is comprised of environmental and social objectives, it is not sensible to differentiate between the individual shares for environmental and social investments. At the end of the abbreviated accounting period, the actual share of investments that pursued environmental and social objectives was 88.10 % of the fund assets.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments that neither qualify as a sustainable investment nor are aligned with environmental or social characteristics were sight deposits and derivatives. Sight deposits were not subject to the sustainability criteria of the investment strategy and were used primarily for liquidity management. Derivatives were used for duration management. Accruals and deferrals were included in the position "other".

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The attainment of the environmental and/or social characteristics promoted by the fund was continuously monitored against defined limits as part of the internal limit system.

With regard to ESG (environmental, social, and governance) factors, the investment strategy contained mandatory negative criteria, a comprehensive sustainability-related analysis, and the construction of a portfolio taking the ESG score and ESG momentum into account. During this process, especially high importance was placed on the quality of the company and the business model. A high degree of sustainability and fundamental strength were the key aspects for an investment.

More detailed information on the implementation of the engagement policy can be found in the annual engagement report on the website of the management company in the section "Our Topics/Sustainability" within the paragraph "Policies & Reports".

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.
